- Writing an audit report
- Performing audit follow-up
- Assessing the effectiveness of implemented corrective actions

PREREQUISITES

- Knowledge of the reference standards applicable to the implemented management system (e.g. EN 9100, ISO 9001, etc.).

TARGET AUDIENCE

- Any professional required to implement an audit system and/or conduct audits.

Please contact us for any information regarding access and accommodation conditions for participants with disabilities.

DURATION

3 days (21 hours)

PRICES

Inter-company training: €1,850 excl. VAT per participant (minimum 3 participants)

Intra-company training: please contact us

ACCESS ARRANGEMENTS AND TIMEFRAMES

INTER : registration is open until two weeks before the training date.

INTRA : training can be delivered approximately one month after quotation approval (indicative timeframe).

TRAINING METHODS

The training is based on a combination of theoretical input, games, examples and/or practical case studies.

Participants are required to bring a laptop computer.

A training pack is provided at the end of the session

(including theoretical principles covered during the training and exercise materials)

ASSESSMENT METHODS

Participants' knowledge acquisition is generally validated through a quiz.

It may also be assessed using other methods *(at the trainer's discretion and/or in agreement with the client)*.

At the end of the training, a certificate is issued based on the assessment results.
